After you have fill in all fields and you are satisfy with that you click save and new permission window open with award settings for that award you just created. Below what all settings is for and what they mean

- ** View =** What group can view awards and awarded members awards
- ** Award =** What group can view the application iAwards
- ** Receive =** What group can be awarded from 'Manage Awarded'
- ** Self =** What group can award themselves
- ** Restrict Multiple =** Protect this award to be given more then once so a member can't get same award several times
- ** Edit / Delete =** What group can edit and delete awards
- ** Manage Awarded =** What group can assign awards to others

NOTE: Remember earlier we had **category permissions view and add awards** and that settings are not override anything here. Category permissions is for +create menu on the front end .. -RAW- Says this setting can be removed in a future version . but now its here and I wanted to tell you how its working here for now
